## Typeface

The two typefaces that I choose for the website are Orbitron and Open Sans. The Orbitron font was used because of its style being more futuristic. This music website's main genre is electronic dance music, thus futuristic and electronic type of font was used. Orbitron will be used for the heading 1 (24pt), heading 2(22pt), and heading 3 (18pt). The second font is called Open Sans and it will be used for the body font (12 pt). For the legibility of lengthy paragraphs, Open Sans was chosen.

## Color Palette

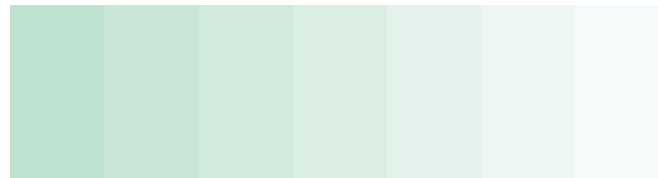

This is the color palette that will be used for the website. The color palette was created by selecting colors that are common in electronic music festivals. These festivals tend to have variety of colors, because of this, different shades of the colors are presented.

CMYK : 100%, 86%, 30%, 17%  
RGB : 0, 55, 112  
HEX : #003770

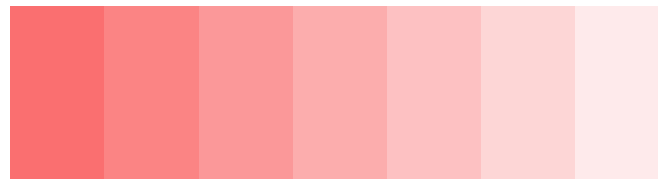

CMYK : 69%, 17%, 0%, 0%

CMYK : 0%, 71%, 47%, 0%  
RGB : 250, 111, 112  
HEX : #FA6F70

## Images

Images should be shown without any filters applied to them. The exception is when it is used for the background. For this case, images then can have lower opacity so the texts above the images are readable. Additional restriction is that images should not have any borders in order to have consistent flat design. Lastly, all images should have good quality to please the users.
